Subject: Application for the position of jeweller (polishing and stone setting)

Dear Sir or Madam,

I hold two French CAP diplomas in Jewellery Art and Techniques from the École Saint Éloi in Faverges: polishing in 2025, then stone setting in 2026. I am now looking for my first position in a workshop.

Saint Éloi is a production school: I spent most of my training at the bench, working on real orders for jewellery houses. There I practised bright polishing and finishing on gold and silver, grain, prong, bezel and flush setting, as well as soldering and assembly.

I would now like to keep learning in a workshop, alongside experienced professionals. I am meticulous, reliable and discreet.

I live in Gruffy, in Haute-Savoie, near Geneva. I would be glad to meet you or to come for a bench trial.

Kind regards,

Vadim Mury
